

## Fraction Hexagon Puzzle Grid.

Place your hexagon cards onto the grid where shown. Now rotate the hexagons to match up the equivalent fractions. See how many you can get to fit correctly.

See how well you scored.

Number of hexagons **correctly** placed against each other :

- |   |                     |    |                        |
|---|---------------------|----|------------------------|
| 1 | A plant can do this | 7  | Now that's good        |
| 2 | A very clever plant | 8  | Very Clever            |
| 3 | Well it's a start ! | 9  | Wonderful              |
| 4 | Getting there       | 10 | Albert Einstein        |
| 5 | Pretty good         | 11 | Superb                 |
| 6 | Cool                | 12 | Brain the size of Mars |
|   |                     | 13 | Mathematics teacher!   |
