

Adding and Subtraction Pyramids

20).

The idea of these pyramids is that the two squares underneath add to make the one above it.

So now that you know what to do, it's your turn!

Try #s 19, 25, 27, 30 & 34

For further practice try #s 21, 28, 32 & 37.

Warning #37 is more difficult, but definitely worth trying!

Use the chart anchor if necessary!
