Am I Normal?

Learning Goal: We are looking to explore what it means to be normal.

Your task is to create a poster representing a "Normal Grade 7 Student".

You can draw it by hand, make a collage or create one on the computer. All parts should be labelled with the parts that make up a "normal student".
Take a look at some of the work that has been produced. In your table groups discuss the following questions:

- What do normal grade 7 students think about?
- How do normal grade 7 students feel most of the time?
- How do they interact with friends?
- What do they fear? What do they love?
- How do they feel about God?
- What pressures do they face?
- What do they think is the most important in their lives?

OK, so do we think that this was a hard or easy assignment? Why?

Were some questions harder to answer than others? Which ones? Why?
