The Bible

- Not a history book
- Created to help people understand God and their relationship with God
- How do we understand someone?
- The Bible talks about how God has related to people throughout history
- Important in telling us how things have happened but also how God continues to act today
- God is the same today as God was in the Bible stories

The Bible

- Biblical stories of the relationship between God and God's people are repeated over and over again in the lives of individuals and communities
- Stories in the Bible have context that is relevant to events that happen today
- We must realise that the biblical story is OUR story
